

CNS AMURA Precision Co., Ltd

ABOUT THE COMPANY

CNS Amura Precision Co., Ltd. (CAP) is a joint venture established in 2012 between the Saigon Industry Corporation (CNS) and Amura Precision from Singapore.

CAP is specialized in precision molds for plastic, rubber, aluminum die casting and stamping dies. We also manufacture precision engineering parts used in automotive, telecommunication, computer, electrical and electronics, medical and office-automation industries.

CAP has recently invested in the latest SUMITOMO ALL ELECTRIC injection machines from 75 ton 350 ton to offer a better service to our customers.

YOUR REPLIABLE PARTNER

CUSTOMER SATISFACTION

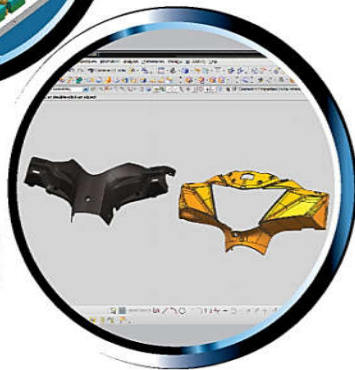

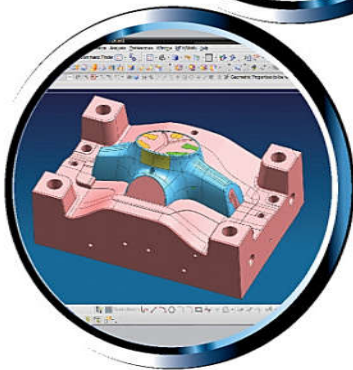

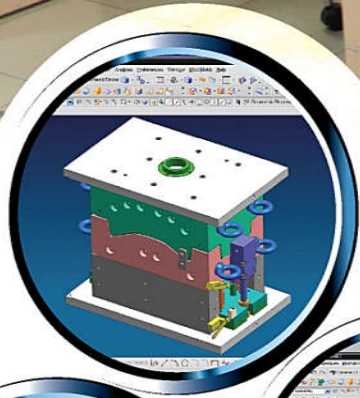

We are committed to providing excellent services, delivering high quality products, with a short lead time and at competitive prices.

WIDE RANGE OF CAPABILITIES

We focus on good teamwork among experienced managers, well-trained engineers and dedicated workers, to meet customers' diverse demands and high expectations.

Our comprehensive services provide one-stop solutions for products to enter the market at the shortest time, from product development, prototyping, molds production to injection.

ENGINEERING SOLUTIONS

CAP has invested in official licenses of the NX CAD / CAM UNIGRAPHIC 3D Software from SIEMENS, which delivers next-generation design tools and technologies.

Our qualified designers and engineers are trained domestically and internationally to work on the software in their respective fields, in order to provide custom made engineering solutions.

MISSION

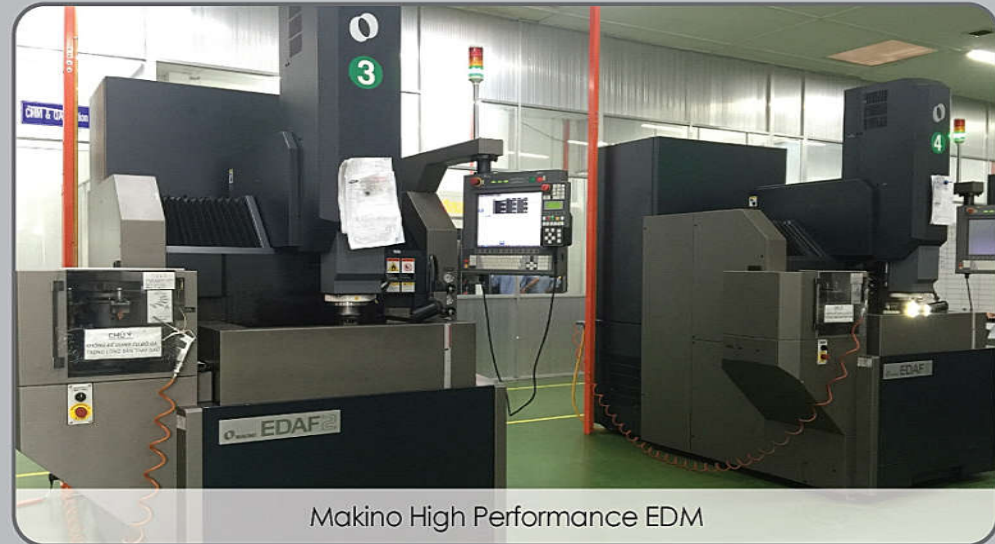

We continuously explore and acquire new technologies to improve and optimize our manufacturing processes and quality management systems; to offer customers excellent services, delivering high quality products at competitive prices.

VISION

To be a leading precision engineering and manufacturing company in Vietnam with excellent services, delivering high quality products and short lead time, at competitive prices.

Makino High Speed CNC Center

Makino High Performance EDM

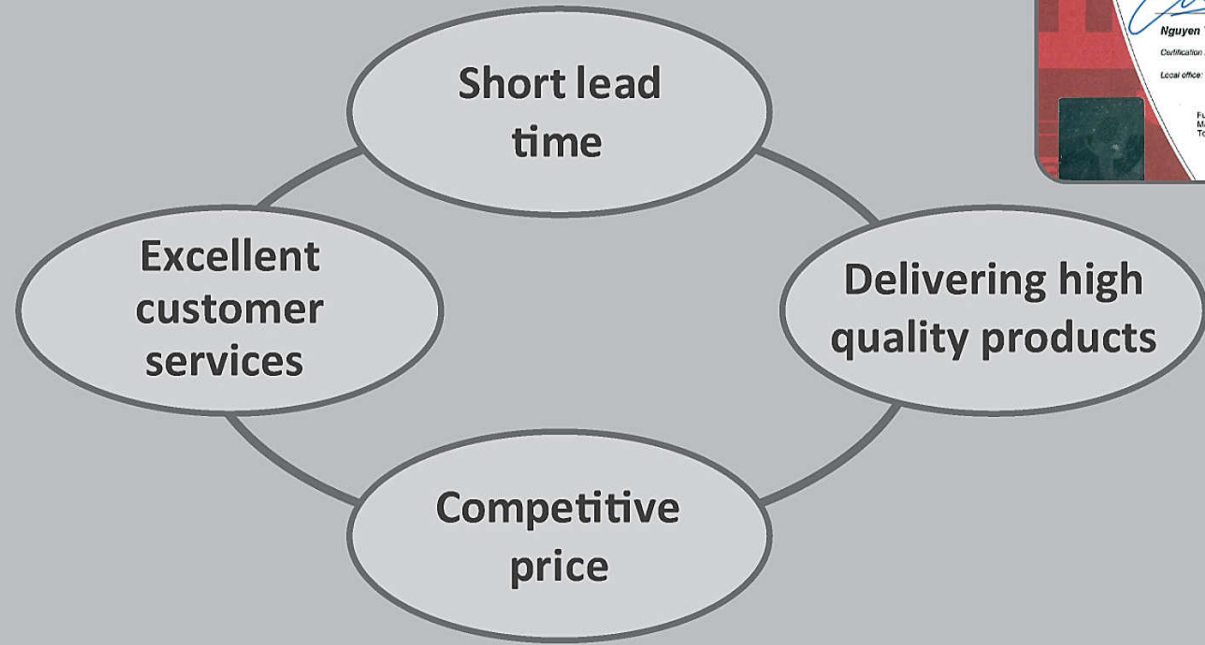

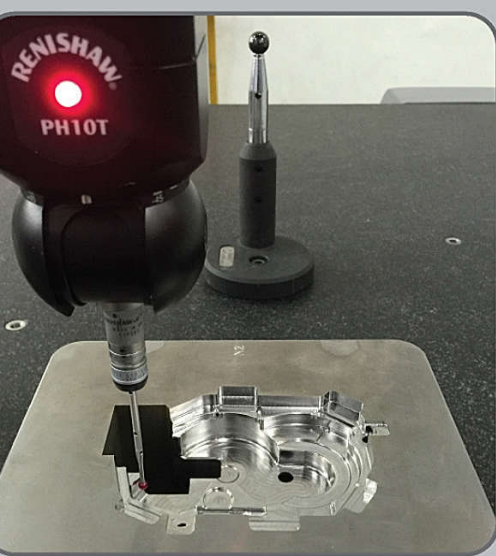

Sodick High Speed Wirecut

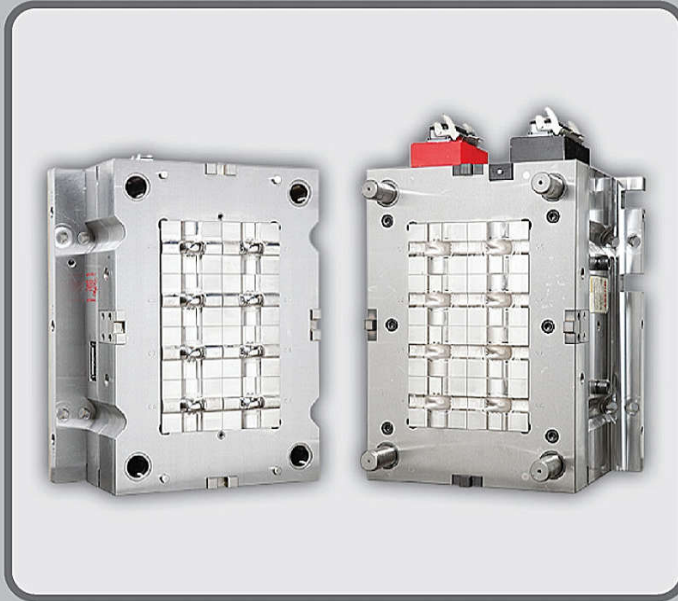

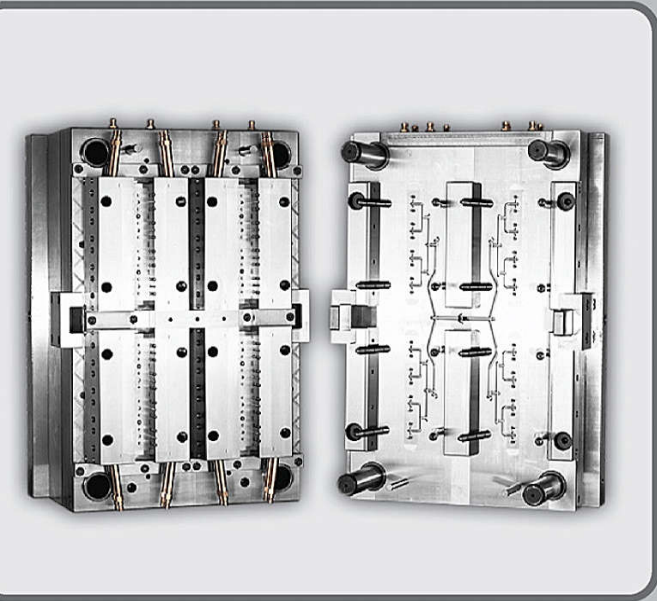

Mazak Multi-tasking Turn-Mill

QUALITY ASSURANCE

Quality management system ISO 9001:2008 is applied in our production procedures and processes, which guarantees our high productivity and stable quality.
